The considered alternative to road transport.

Boat delivery & concierge across UK inland waterways

hello@riverways.co.uk · riverwaysmarine.co.uk

A smarter way to move your boat.

For most narrowboats, widebeams and inland cruisers, moving by water is faster to arrange, gentler on the vessel, and far less disruptive than road transport. No crane hire, no low-loader, no wide-load permits — just a qualified skipper delivering your boat under her own power.

What you avoid with waterway delivery

- **No crane hire** — often £500–£1,500+ at each end, plus rigging.
- **No low-loader or haulage** — no chassis stress, no restricted loads.
- **No wide-load permits or police escorts** for widebeams.
- **No marina lifting slots** to schedule weeks in advance.
- **No paint, gel-coat or trim damage** from strapping and blocks.
- **No re-commissioning** — your boat arrives ready to use.

What you get instead

- RYA-qualified, uniformed skipper at the helm.
- Full passage planning, tide and lock scheduling.
- Daily progress updates and photographic reports.
- Fully insured delivery, BSS-compliant handling.
- One fixed quotation — no surprise haulage extras.

Clear pricing. No surprises.

Every delivery is quoted individually — the prices below are honest starting points to help you plan. Final quotations are fixed and tailored to your vessel, route and dates.

RiverWays Move

From £175 half-day · From £295 full day

Skipped relocation on inland waterways. Ideal for repositioning between moorings, marina moves, and short cruises.

RiverWays Signature
